# Light

# inspires,

With Lirio by Philips we continuously challenge ourselves to shape a light portfolio that brings both compelling designs as much as it intrigues with the light it creates. LED is taking an important role in the portfolio, allowing the design team of LIRIO to craft new, unique designs and forms.

As the light bulb replaced candles, the LED will now replace the bulb; a paradigm shift, allowing light to gain a new meaning in the home. The role of design is to enable this shift from styling luminaires to designing light itself.

Keeping in mind the important role that light takes in your life, LIRIO by Philips wants to offer you a collection that inspires and adds personality. Offering a true match between imaginative design and a human approach to innovation, LIRIO by Philips is an invitation to all to express yourself in your interior.

Lirio by Philips is a beautiful story to share.

NOT TO GET ONE

# PICULET

The designer was inspired by a woodpecker bird when creating the Piculet. Piculet is a small iconic table lamp that fits any style or interior. It stands up straight like a woodpecker, ready to hop and peck away at whatever is in sight. The lamp was given the name of the smallest woodpecker bird, Piculet.

# PICULET

## Ready to hop from spot to spot

*Inspired by a 'woodpecker' bird.*

The head and foot of the Piculet can be assembled by its owner, showing off a playful, accentuated mark at the rear where the braided wire creeps out.

It comes in a variety of soft tones and a luxurious finish.

Inside the head there is warm white LED module inside. The light is warmly diffused by the diffuser creating a nice ambiance. The light can be turned on by the rubber switch on the head.

# LA LENTE

## Lost and found again

Inspired by a magnifying glass, the gentle looks of La Lente make it appear as if it is looking for the source of light itself... as if it got lost and La Lente wants to retrieve it.

# LA LENTE

## Lost and found again

Dressed up in its own trendy colors - white and soft blue abyss - this small and compact table lamp is your trustworthy companion to bring a light accent on your bedside table, in your living room or in your hallway.

Emitting a diffuse glow without using a light bulb, La Lente lights up only by touching the back-side.

## What is it about light that we can't grasp?

Light is all around us, yet we can't put our finger on it. Ecliptic is just as mystifying as light. It's a body with a glowing cavity, mass and void, all in one. It looks like it's from outer space.

Ecliptic appeals and amazes. It is a mysterious interpretation of light.

23

CIELO

24

## Where is light coming from?

Cielo keeps a secret inside and makes the impossible possible: to emit light without a bulb. Bathing in eternal light, the shade lights up from the inside. See through Cielo – it is pure magic.

The combination of a classic shape and integrated LEDs, makes Cielo the essence of sophisticated lighting. A true Lirio by Philips classic 2012 iF and Red Dot Design award winner.
